MVShield – CentOS & Rocky Linux Support Program
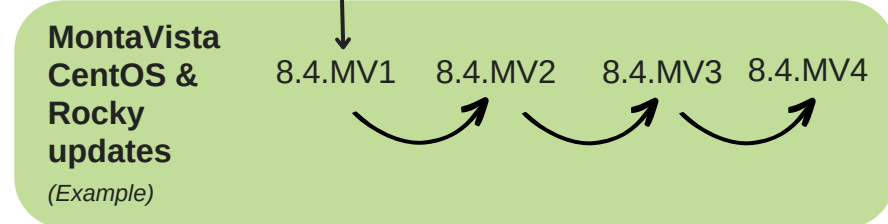

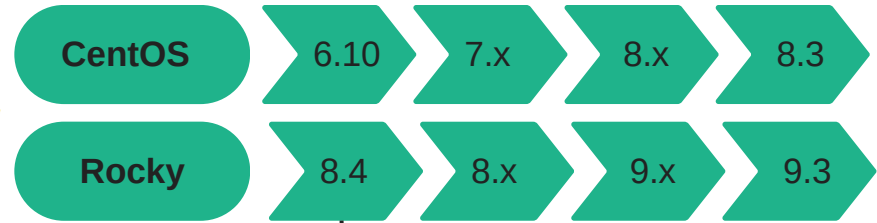

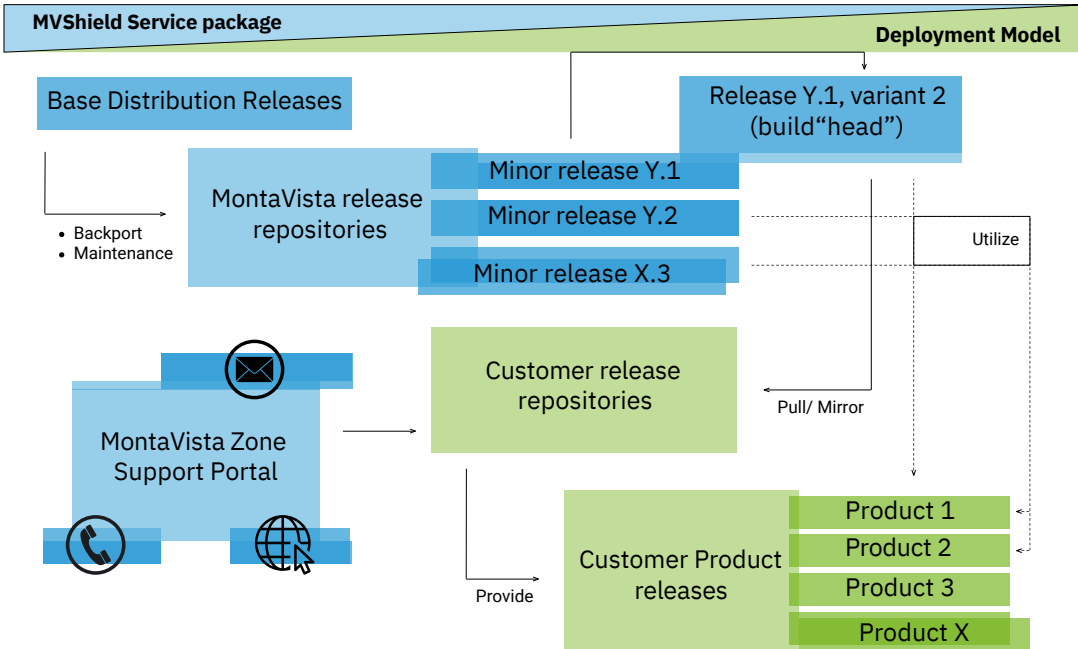

MontaVista's commercial support program for CentOS® and Rocky Linux®

SCAN ME

The program offers expert guidance on CentOS® and Rocky Linux® - distributions derived from Red Hat Enterprise Linux® (RHEL), including ongoing releases, extended lifecycle support (ELS), end-of-life (EOL) distribution migration and transition.

Leveraging MontaVista's extensive resources, MVShield provides comprehensive maintenance coverage for for Common Vulnerabilities and Exposures (CVEs) and run-time defect resolution, giving peace of mind with RHEL-compliant Linux baselines.

MVShield Service package

Deployment Model

Base Distribution Releases

Release Y.1, variant 2 (build "head")

MontaVista release repositories

- Minor release Y.1
- Minor release Y.2
- Minor release X.3

- Backport
- Maintenance
